7. Adjournment

MIN 01/03/CEF/2024: INTRODUCTION

The meeting started at 10:00AM with a word of prayer. The Municipal Manager then welcomed people present to the meeting. This was followed by a brief introduction from the community members and staff present, facilitated by Mr. Benard Matu (ICT Officer).

MIN 02/03/CEF/2024: PRESENTATION OF INTEGRATED DEVELOPMENT PLAN (IDeP) 2024/2029

The Municipal Manager took the residents through Nanyuki Municipality Integrated Development Plan (2023-2028) being the first to be formulated by the Nanyuki Municipal Board to actualize the provisions of the Urban Areas and Cities Act, 2011, provisions of the 2010 Constitution as well as Public Finance Management Act, 2012.

He informed the meeting that the IDeP seeks to provide the basis which will guide the execution of the priority projects and programs within the Municipality and that the plan immensely borrows from the Laikipia County CIDP (2023-2028) putting more emphasis on the transferred functions via Gazette Notice:159878 dated 24th November, 2023.

The Municipal Manager enlightened the residents on the content of the IDeP (2023-2028) following the five chapters of the documents.

Chapter one gives the background information on the socio-economic and infrastructural aspects that has a bearing on the development of the municipality where this chapter provides a description of the municipality in terms of the location, size, population, physiographic and natural conditions, demographic profiles as well as the administrative and political units.

This chapter provides information on human development approach; infrastructural development; land and land use. It also provides information on demographic features, road network; information and communication technology; energy access; housing; land and land use; employment; irrigation infrastructure and schemes; crops, livestock, fish production and value addition; mineral potential; tourism and wildlife; industry and trade; main forest products; Financial services; environment and climate change; water and sanitation; health access and nutrition; education, skills, literacy and infrastructure museums, heritage and cultural sites; community organizations/non-state actors; corporative societies; security and law and order and social protection.

The Municipal Manager then proceeded to chapter two which discusses the Municipality Integrated Development Plan linkages with the Kenya Vision 2030, Sustainable Development Goals, Laikipia County Integrated Development Plan (2023-2027) and other long-term planning and policy documents. He further elaborated that the linkage between the Big Four and county development agenda has been expounded.

The Municipal Manager later proceeded to chapter three, which discusses the key municipality development priorities, strategies and programmes, and projects as identified by stakeholders during the preparation of the County Integrated Development plan (2023-2027). He noted that these includes strategies; transportation strategies, environment management strategies, disaster management plan and culture heritage and conservation. The Municipal Manger explained that the development priorities are aligned by sector .

He then proceeded to chapter four which discusses the implementation framework that will be followed in actualizing the Municipal Integrated Development Plan. He stated that these includes Institutions responsible for the actualization of Nanyuki Municipality Integrated Development Plan (IDeP) 2023-2028, resource requirement and mobilization.

The Municipal Manager also informed the residents present that chapter four highlights the stakeholders in the municipal establishment, the roles that they will play and how their functions will be accommodated to avoid duplication of efforts and hence fulfilling the set goals and objectives within the set time frame.

He concluded with chapter five, which outlines the rationale for a robust municipality monitoring and evaluation system, as well as highlighting the key outcomes for the various programmes and the desired targets for the planned period.

The Municipal Manager highlighted that the municipality will ensure that there is clear linkage between this IDeP and other plans for effective tracking of progress towards achievement of projects and programmes. The targets set in this plan will be aligned to the relevant county departmental level and further to individual work plans annually. Therefore, the focus of county departments' indicators and targets will be alignment to the municipality's long-term direction. Monitoring and evaluation forms part of the Performance Management framework, which encompasses setting performance indicators, measuring them over time, evaluating them periodically and finally, making course corrections as needed.

MIN 03/03/CEF/2024: PLENARY

i) Street lighting

Members present raised a concern of lack of street lights, and where present, malfunctional, in Central Business District(CBD), Muthaiga, Thingithu, Ruai, Likii and Majengo village. This has greatly contributed to insecurity in this areas resulting to a deterred 24-hour economy. Members suggested streetlights be installed to improve visibility and security i.e. reducing accidents, deterring crime and facilitate safer pedestrian and vehicular movement at night.

ii) Solid waste management

Members noted with concern that Nanyuki town and its environs is currently having a challenge in regards to improper solid waste management. This has resulted to an increase in litter within these areas. As a result, members suggested that waste be properly disposed by having more containers for waste disposal for both organic and inorganic materials, where waste can be converted into a resource.

It was proposed that cow dung from the slaughterhouse be converted into biogas through installation of the system at the facility.

iii) Disaster management

A representative from Kenya Red Cross uploaded the firefighting department for responding swiftly upon raise of an alarm. He however raised concern on the gap in disaster coordination within the County. He proposed that capacity building among the staff would bring about coordination in matters mass accidents. He also proposed purchase of a modern fire engine.

iv) Sporting facilities

A representative from the youth requested the Municipality for a facelift in the Nanyuki Stadium. This will enhance the stadium into a modern facility, attracting more partnerships from various stakeholders and also generate revenue to the Municipality as well.

A representative from the Laikipia Deaf Community also requested for modern rehabilitation of the Social hall to accommodate indoor games such darts, chess, badminton and table tennis.

A youth from Majengo also proposed construction of a sports academy in collaboration with donors.

v) Audiometer for persons with hearing impairment.

Laikipia Deaf Community Leader, Mr Dominic Maroko, requested that the Nanyuki Teaching and Referral Hospital be installed with an audiometer to enable people with hearing impairment access this service without having to travel to Nyeri or Nakuru.

vi) Kanyoni allotment letters

A resident from Kanyoni area admitted that the area has so many challenges ranging from poor drainage systems, to lack of security lights, but noted that the residents of this area would request the Municipality to aid in them acquiring land ownership documents.

vii) Matanya Stage

A representative from Matanya Stage requested the Municipality to aid in construction of business stalls in the area.

viii) CEDC

Kerubo from Muthaiga Estate requested the County Governmet of Laikipia aid in improving the living standards of children at Laikipia Rescue and Rehabilitation Centre, commonly known as CEDC by providing its beneficiaries with school shoes, school uniform and increase their food supply.

MIN 04/03/CEF/2024: MUNICIPAL ANNUAL INVESTMENT PLAN FY 2025/2026

Upon invitation, the community members were requested to prioritize projects/ programmes to be included in the Municipal Annual Development Plan.

This was done as follows:
